On Conscious Leadership
A Fireside Chat with Guru Singh

Join Gratitude Network Founder Randy Haykin in conversation with Guru Singh on Conscious Leadership. In this conversation, we'll explore the principles and practices of conscious leadership - including the importance of self-awareness, empathy, and mindfulness as a leader.

Guru Singh is a celebrated 3rd generation yogi, master spiritual teacher, author, scientist and musician. He teaches conscious living through the tools of Kundalini yoga, meditation, humanology and harmonic sound. Since birth, Guru Singh has been influenced by the ancient teachings from multiple cultures, and subsequently studied and taught them with a deep passion. Using the discoveries of mysticism along with the processes of modern science he translates this wisdom into a language with real and practical meaning for the 21st century. Guru Singh was one of the original partners to conceive of and build the Gratitude Network in 2012 and has played a key mentoring role in the growth of the Gratitude Network in the past ten years.

Randy is a well-known Silicon Valley entrepreneur, investor, and coach. Randy left a successful career as a serial entrepreneur and venture capitalist in 2013, when he created the Gratitude Network. Prior to that, he held early digital media leadership roles at Apple, was the founding Vice President of Sales and Marketing at Yahoo, and has worked closely with CEOs at more than 120 early- and mid-stage companies as an investor, advisor, mentor or coach. Randy has also taught courses at UC Berkeley Haas School of Business and at the University of Cambridge. In addition to running Gratitude Network today, Randy coaches several prominent for-profit CEOs. He holds a BA in Organizational Management from Brown University and an MBA from Harvard.
